

Patient Resources for Video Visits

Updated: 4/1/20

- To print this for the patient, click on  in the upper right of the online manual page and select **Printable Version**.
- **Patient-Sided Video Visits Tutorial:** https://www.medent.com/tutorials_mp4/PatientSideVideoVisits.mp4 (1 min 55 seconds)

MEDENT Video Visits FAQ

 **Q:** How can a patient connect to the visit?
A: Via a link received in a text message, email or patient portal.

Q: Play button not working? Link not valid?
A: Disconnect from WiFi. It may be blocking you. 

 **Q:** How can you fix the video/audio quality?
A: Hang up and reconnect. Try turning on HD.

Q: Access denied?
A: Your device does not have the hardware required for a visit. Try using a different device. 

Q: Unsupported?
A: Try a different browser. If in iOS, make sure you are using Safari. If using a third party email app, choose Safari to open the link and press the compass icon [top right corner on an iPad; bottom right corner on an iPhone].
